

## HEALTHY TOGETHER UPDATES

Halfway there! We are at Week 7 - the halfway mark of this fall semester. Congratulations! Next week we will get to celebrate together as a campus with Mountain Day events.

It has been a big adjustment and has taken everyone's commitment to staying healthy together. Thank you for keeping our campus safe and healthy!

In the midst of campus-wide COVID testing this week and next, let's continue to be focused on minimizing exposure so we can contain the virus and finish the last half of the fall semester strong and healthy. **Remember to keep a chart of your contacts two days before you test.** That way if you are positive, you can provide that info for contact tracing.

**On Friday, Oct. 2, we will provide an update on this week's testing and COVID by the numbers.**
